

Mini Crawlers

Used Mini Crawler Corona - We have designed various programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who needs certification or re-certification, and for inexperienced operator who is looking for a job in the industry. Positions for crane operators are in demand due to their high rates of pay. Operators of cranes are among the highest paid of whatever heavy machine operator. Our Crane Training Schools feature instruction and training for a wide variety of mobile cranes. Course content consists of Crane Set-up, Wire Rope, Load Dynamics, Lift Planning, Signaling, Load Charts and Rigging. The program is best for crane operators, riggers as well as their supervisors. The materials included in the course would consist of a manual and lots of informative handouts. The safety guidebook which is illustrated features one hundred to two hundred fifty pages, depending on the course, of useful and vital material. Course materials include load exercises and load charts for the crane with which the person training is working. Over half of the course comprises Hands-On Safety Training. Practical training is effective for developing and increasing personnel skills levels. Just certified journeyman crane instructors are chosen to teach the courses. Our instructors have numerous years of business experience. Optional testing mechanisms are offered for all of our courses. Students would usually write tests both prior to and following training. A test for skills is normally administered for programs that include H.O.S.T. Individuals training will be graded and tested. Certification Training Programs: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Articulated Boom/ Knuckleboom Cranes; Rigging / Signallerperson Training and Certification; Testing & Certification; and In-The-Seat Training. Business standards of practice are evolving as new business requirements surface. There are constant updates to legislation and regulations. Enhancements in equipment and technology continue to be made. Industry data analysis and collection detect changing trends. Members maintain the advantage of managing their certifications and training programs. Mobile device alerts keep members abreast of workplace and personal safety news.
